ABOUT MTTI

Established in 2002, the Michigan Tech Transportation Institute (MTTI) is THE central entity on Michigan Tech's campus for transportation related research, outreach, workforce development, and educational initiatives that address national and global needs.

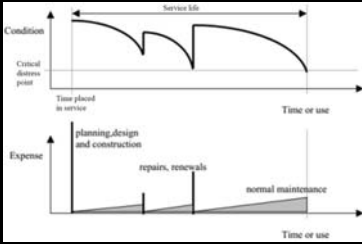

Research agendas are driven by national and international needs and generally focus on transportation structures, systems, materials, the environment, society, and tech transfer.

Over the past 15 years, MTTI has been awarded 418 projects from a multitude of sponsors totaling **\$51,639,290**, making lasting contributions to the nation's transportation systems.

ABOUT THE UNIVERSITY

Michigan Tech a leading public research university, home to more than 7,000 students from 60 countries around the world. Founded in 1885, the University offers more than 120 undergraduate and graduate degree programs in science, technology, engineering, and mathematics. Our beautiful campus in Michigan's Upper Peninsula overlooks the Keweenaw Waterway and is just a few miles from Lake Superior.

Michigan Technological University is an Equal Opportunity Educational Institution/Equal Opportunity Employer, which includes providing equal opportunity for protected veterans and individuals with disabilities.
